THE CHALLENGE OF AN EMPTY PLATE*

* BEEF - 140,000,000 lbs. still to be shipped.

The United Kingdom and liberated Europe rely on for Canada 225,000,000 lbs. this year.

We supplied only 85,000,000 lbs. to August 31.

* PORK - 100,000,000 lbs. still to be shipped.

The United Kingdom and liberated Europe rely on Canada for 450,000,000 lbs. this year.

We supplied only 350,000,000 lbs. to August 31.

* CANNED MEAT - 70,000,000 lbs. still to be shipped.

The United Kingdom and liberated Europe rely on Canada for 114,000,000 lbs. this year.

We supplied only 44,000,000 lbs. to August 31.

In most liberated European countries, there is a desperate shortage of meat.

As a great food-producing nation, Canada must, can — and will — help to meet the emergency.

The job will not be finished at the year's end. Food scarcities in Europe will continue until the next harvest.

This year, Europe is relying on Canada for a minimum of 789 million pounds of beef, pork and canned meat.

Up to the end of August, only 479 million pounds had been sent.

How soon can we bridge the gap?

Livestock marketings are normally at their heaviest in the last four months of the year.

If we are to help feed the hungry peoples of devastated Europe, this is the time to make our greatest effort.

To do our part, we must reduce our own consumption of meat and also assure that everyone in Canada gets a fair share.

That is why rationing is necessary.

MEAT RATIONING ADDS TO EVERYONE'S WORK

The producer who slaughters, the retailer who sells, the consumer who buys and eats — they all play a vital part.

AS A CONSUMER, HERE IS HOW YOU CAN CO-OPERATE

1. Try to plan your meat purchases before leaving home by determining what cuts you intend to buy and their approximate weights.
2. Make sure you have enough valid coupons and tokens to cover your proposed purchases by referring to the Consumer Coupon Value Chart and the Coupon and Token Calculator. Copies may be obtained from your Local Ration Board or Ration Branch.
3. Know the dates your "M" coupons become valid.
4. Do not buy more meat than you really need.
5. Avoid shopping at rush hours.
6. Be patient. Remember — your butcher may have inexperienced help.

Hong Kong Liberation

THE LIBERATION OF HONG KONG and its formal restoration to Britain added another chapter to the colorful history of that important commercial centre and naval base in the Far East. Its fall in December, 1941, was one of a number of defeats suffered by Britain, the United States and other Allied nations, during the opening months of Japan's campaign in the Pacific. Canadian troops, stationed at Hong Kong, fought gallantly to defend it, and Canada's interest in its liberation and the release of prisoners of war captured there more than four years ago, was great. Two Canadians, Captain Wallace Creevey of the Royal Canadian Navy and Brigadier O. M. Kay, Canadian military attaché at Chungking, represented the Dominion in the signing of the Japanese surrender document, and the Canadian cruiser, Ontario, and the anti-aircraft cruiser, Prince Robert, were among the ships in the harbour which fired 21-gun salutes to mark the end of Japanese rule.

History Showed Steady Progress

Hong Kong includes Hong Kong Island, situated at the mouth of the Canton River, and Kowloon Peninsula, which is on the mainland opposite the island. The capital city, Victoria, extends about five miles along the southern shore of the island. It is a Crown Colony, administered by a Governor, with Executive and Legislative Councils. In 1940, the civilian population was given as 1,071,893, of whom 1,047,768 were Chinese. The Colony was acquired by Britain from China in 1841, in exchange for Canton, where business houses had been established earlier by the British East India Company. Hong Kong was then almost a barren island, but from the time it was taken over by Britain until it fell to Japan in 1941, its history was one of steady progress and development. With the co-operation of the Chinese population, hospitals were established, and fine educational facilities, including schools, a teacher training college, an evening institute, and the University of Hong Kong were set up.

A Centre Of World Trade

Situated on one of the finest harbours in the world, with a water area of seventeen square miles, Hong Kong has docks capable of holding the largest types of ships. It is known as a centre of world commerce for China and other countries in the Far East, and its excellent harbour facilities have also made it an important military and naval base. In 1939 nearly fifteen and a half million tons of shipping entered Hong Kong harbour, which was a port of call for all steamers operating across the Pacific. It also had direct communications with the Americas, Europe, Australia and South Africa, through the Pacific Ocean, the Panama and Suez Canals, and the shipping lanes of the Atlantic Ocean. Like many other places which were under enemy control during the war, Hong Kong is now re-establishing peace-time institutions and resuming normal connections with the outside world.

Will Have To Wait

Highland Regiments Cannot Have Kilt Until Material Is Available
The Scottish Command has pressed for the return of the kilt to the Highland regiments, and the British War Office took the matter under active consideration, reports the Edinburgh Scotsman. Major the Hon. H. M. Douglas Home, Public Relations Officer of the Scottish Command, said that at the moment the kilt was what might be termed a luxury dress, and his belief was that its return would not come until the essential clothing needs of the Allied peoples in Europe had first been met. The shortage of material and the scarcity of labor for the making of kilts, which was a specialist job, was a big problem to overcome.

Price Control And Rationing Information

Q—Recently I purchased a house which is vacant. I now find that for certain personal reasons, I cannot move into the house for some six months. I wonder if you can tell me whether or not I can rent the property and yet be sure of possession again at the end of six months?

A—You may rent the property for any definite period of five months or less and still be sure of gaining possession at the end of that period. The rental regulations provide that during any twelve-month period, the first lease of five months or less shall be exempt from the regulations as far as the termination of leases is concerned.

Q—Will you kindly list the fancy meals which have been temporarily removed from the ration?

A—The "fancy" meats which have been recently taken off the ration list are liver, heart, kidney, tongue, sweetbreads together with blood sausage.

Q—Have all restrictions been removed on farm machinery?

A—On September 28 all restrictions were lifted on farm machinery. However dealers will be expected to honour outstanding ration certificates before filling orders from new accounts.

Q—My husband and I are leaving shortly to visit our daughter in the United States. What do we do about ration coupons?

A—Ration points to cover the length of your visit in the United States will be issued to you by the Local War Price and Rationing Board in the district where your daughter lives.

Please send your questions or your request for the pamphlet "Consumers News" or the Blue Book in which you keep track of your rationing, to the National War Price and Rationing Board in the district where your daughter lives.

CRIMINALS EXPENSIVE

The Vancouver Province says actually, habitual criminals are among the most expensive of luxuries. Figures show that 188 "repeaters" in our Canadian prisons, having spent a total of 2,037 years in confinement cost the nation for maintenance \$1,348,130.76. With conviction costs their total bill comes to \$4,607,000—an average cost to the taxpayer of \$25,059.24 apiece.

The water buffalo is considered the second most dangerous of all the Indian "wild" animals, yet it is "domestic" animal of many regions.

OUR COMPLETE SHORT STORY—

Uncle Dudley's Race

By H. F. VASEY

McClure Newspaper Syndicate

"I'm an old fool if ever there was one," mumbled Uncle Dudley, "should have had sense enough to keep my mouth shut. Well—I've got to go through with it now." He shook his head sadly.

Uncle Dudley was lean, but tough and wiry even though close to seventy, with hair white as a pie-bald's spots. There was devilry in him too, and a capacity for quick thinking. Not one of the country's sturdiest citizens, Dudley lived from hand to mouth in a fashion deplored by the ladies of the Uplift Society.

His one passion was walking. He counted the day lost if he did not get in at least ten miles of lively hoofing across the country. When he was not tramping he sat in the local pool hall, tilted back in a chair and listening. The boys were discussing the merits of Ma Feddler's pies one day when Jed Whetter rode by on his pinto mare.

"There goes the speediest little mare in this county," Jim Lake declared. "Ain't nothin' can outrun Daisy hereabouts."

"Guess you're right," Dave Massey said.

"Pretty little beast, too," chimed in Pop Walters, shifting his two hundred and forty pounds to a more comfortable position. "She ain't big, but she shore has got action. You Sire!"

"Sure, an' it's little the competition she'll be gettin' around here," Mike broke in. "I'm thinkin' that few men would wager a cart-wheel on a hundred-to-one shot against that little filly!"

"Juh! I don't think she's so good as all that," spoke up Uncle Dudley. "Why," he chuckled, "give me twenty-five yards and I could beat her in a hundred-yard dash myself!" A great burst of laughter answered him.

"Sure, your genes have deserted you, Dudley, my boy," said Mike.

Dudley spoke sharply. He could never stand being laughed at. "Not at all! I'd do it tomorrow, if only to show you doddling old blatherers that there's one member in

this rickety club who hasn't got both feet in the grave!"

"Bravo, Uncle Dudley!" broke in Jim Budget, who seemed a fine bit of fun. "I'll be your handler, and see Jed right away. Let's put it off until county fair day. Boy! Will this be a race? And so it was decided. Quickly the news spread to all parts of the village. The contest promised to be the big feature of the county fair. The ladies of the Uplift Society protested that to mix man and beast in such a race was a sin and a disgrace. The fair officials, thinking of their gate receipts, protested that the ladies of the Uplift Society were wrong. The whole county gradually resolved itself into two camps—Dudleyites and anti-Dudleyites. Arguments ran wild and free.

The morning of the fair dawned bright and clear. The sun blazed on a huge red-lettered sign: "Despite runners to the contrary, the race will be run as scheduled at four this afternoon."

By ten o'clock the crowd had already become larger than any the delighted fair officials had known. And still they came! New cars and jalopies; democrats and two-wheeled carts. The Dudleyites came in loyal numbers. The anti-Dudleyites came not to see the race—oh, no! not—but to be witnesses of the Dudleyites in their shameful pleasures.

Uncle Dudley, lion of the day, remained calm, stoically hiding his inner perturbation behind his lean plainsman's mask. He walked about the fair grounds surrounded by little boys grinning in open-mouthed admiration. After fruitfully trying to shoot them off he finally accepted the inevitable and proceeded on his way, a tall island upended in a sea of bright young faces.

Dudley's dinner was passed from hand to hand piecemeal from the distant shores to the centre of the island, and it took some time for his savor in the process it gained much in the homely charm of its presentation. To shouted suggestions that he heat and conserve his strength Dudley shook his head.

Four o'clock arrived at last. For hours the track fence had been lined with spectators. Now they pressed in deeper than ever, threatening to break it down. Sideshows were deserted, display buildings empty, the grandstand grained and creaked. Dudley, rescued by force from his henchmen, was conducted to the track. Dudleyites and anti-Dudleyites mingled freely, antipathies forgotten in the excitement of the final moment. Daisy was at the starting line, with Whetter's boy ready to ride. Her silky tail blew out like a pennant in the breeze as she mimed nervously about the line.

"Ready?" the judge called.

Dudley nodded and jammed his toe into the hole he had scraped out on the twenty-five yard line. Crouched down for a start he looked like a scarecrow when the wind had blown over. "Bang!" went the gun.

With a leap Dudley was away and the hoof beats behind him were drowned out in the great yell that rose from the watchers. Like an ungainly jack-rabbit he went, taking slides that covered so wide at a bound. Ragged coat-tails flew, feet barely touched the ground as he crossed the fifty yard line. A sound behind him made him turn his head. It couldn't be, surely! Yes—Daisy was right at his heels! Vainly he tried for an extra burst of speed.

The seventy-five yard line flew by—and so did Daisy, as close as he could have touched her. The wind whipped her tail to one side and it flicked Dudley sharply in the eyes. Water streamed out of them, almost blinding him. That was the final treat to injured vanity. Dudley's capacity for quick thinking came to the fore.

He recalled that Daisy was very sensitive about that beautiful tail of hers. He'd show her that she couldn't make fun of him before the whole county! With a lucky lunge he caught the offending tail in both hands, giving it a tremendous sideways jerk that shook Daisy from stem to stern.

With a squeal of annoyance Daisy jammed on all four brakes, sliding to a full stop and throwing her rider head over heels. Her own heels lifted high in the air hoping to come in contact with her annoyance. He, however, was well on his way by this time, and a whoop of delight arose from his followers as Uncle Dudley hopped madly across the finish line.

Grinning from ear to ear, he was raised to the shoulders of his cronies and carried triumphantly from the track, while his admirers howled in glee. Daisy's rider picked himself up gloomily from the dust and sheepishly led his mount away.

The race was won! The anti-Dudleyites were completely routed, that all but Daisy. She stood in her stall contentedly munching cats, wholly unaware that her reputation had been lost.

CHEER PRINCESS

Princess Elizabeth, heiress presumptive to the British throne, drove through cheering crowds at Glasgow to address a rally of girl guides. Wearing her uniform as commodore of the Sea Rovers—the naval branch of the girl guides—Princess Elizabeth expressed her conviction that the guides movement would rise to the challenge of peace as to those of war.

Pharmacy Advancement

Scholarships Planned For Canadian Pharmacy Students

The initial step in a nationwide program to raise the standards and acceptance of pharmacy in Canada was taken at the first meeting of the Board of Directors of the Canadian Foundation for the Advancement of Pharmacy held in Montreal, recently. Plans for the raising of funds and their long-term use were outlined by President J. R. Kennedy.

"Scholarships are by no means immediate phases of the Foundation's long range plans, however," Mr. Kennedy stated. "It is hoped that the whole standards of Canadian Pharmacy and the public's understanding of this profession will be raised. The local druggist plays an important part in maintaining the welfare of his community. He is the doctor's partner in maintaining public health. Too often he is not given credit for the part he plays. Last year Canadian Pharmacists dispensed more than 14 million prescriptions, quite apart from those dispensed in hospitals and by doctors themselves."

The Foundation will also help establish Extension Classes for graduate pharmacists to keep them abreast of newest developments plus a program of public information in all parts of the country. Committee chairmen are: Committee on Contributions, Mr. H. L. Schinde, Windsor; committee on Pharmaceutical Education and Research, Dr. A. W. Matthews, Edmonton; committee on Professional Relations and Extensions Services, Mr. V. E. Hessel, Toronto; secretary, Mr. A. E. Laverty, Montreal.

ONE-MAN SAWMILL IN MANITOBA—Single-handed, John Petersen built and operates Manitoba's only water-power sawmill. His mill has an annual production of 300,000 board feet of dressed lumber. The mill is on the Bird river, in one of the most desolate sections of the province. He gives a colony of beaver credit for the success of his business, because they dammed the creek, insuring water to operate the mill. Ten years ago he bought four beaver and then he "put them to work." He doesn't know how many there are now.

✦ This week's Canadians: Outside of the editor the five other members of the Fergus, Ont. New Record who get the paper out are females. . . . An 82-lb. white marlin, first specimen of this tropical game fish taken in northern waters was landed recently off Cape Breton coast. Last was caught off Maine coast in 1877. . . . Record yield: By Bob Gerriah, member of the Melrose, Sask., Barley Club, who grew 750 bushels of barley off 10 acres, and registered seed it was. . . . Miss Bennett, educated at Warton, Ont., who practices law at Brampton, Ont., has been made a King's Counsel. . . . At 82 years, Mrs. J. Watson, of Wembley, Alta., made her first trip in an airplane to visit her family. She had praise most for the stewardess. . . . A Flying Shot, Alta., farmer opines reason for scarcity of ducks and geese up there this season, because "there is no water to swim in." . . . Carman, Man., cafes hear some appalling foul language, according to the Leader. But the other day, magistrate Stefanson himself happened in the cafe, caught a soldier going to it, fined him \$25 when he appeared before him. . . . There should be speed limits at Dauphin, Man., a 2-year-old boy fell off his kiddie-car and broke a bone in his knee. . . . In a farm home basement in the Dakota, Manitoba, district, a muskrat was found with its head and front quarters in a one-quart sealer and unable to free itself.

✦ Health note: Says the Hanna, Alta., Herald: "It is ridiculous as well as tragic that in Canada only one province has a law enforcing province-wide pasteurization of milk. Failure to pasteurize milk results in disease and death. Health authorities have known this for many years, and still much milk sold for human consumption is not so."

✦ The garden of Count A. F. van Rechten at Chilliwack, B.C., grew a crop of okra this year. Grown in southern states and sub-tropical areas, indigenous to Africa, this apparently is the first time it has been successfully grown in this country. Okra is used in soups and stews, essential to the South's famous chicken gumbo.

✦ Recently the New Norway district of Alberta had a hail storm for the first time in over thirty years and with losses mostly 100%.

✦ On a recent Sunday a Japanese baseball team from Vernon, B.C., played an exhibition contest with the team at Salmon Arm, B.C. T'was an interesting battle.

✦ A splendid crusade: The Yorkton (Sask.) Enterprise, commenting that the children have nowhere to go, and nothing to do, says: "Yorkton has started many agencies for the benefit of youth, but very few reach

the fulfillment of their original objective. The recent crime wave across Canada sure points a finger to the need for study of these problems and an immediate attack on the cause. Let Yorkton not be unmindful of its duty. The youth of our city are our future citizens and have been entrusted to our care. Let us not fail them, particularly those who are in need of guidance and encouragement now."

✦ Speaking of the U.S. senatorial criticism of Britain repossessing Hong Kong, the Waterloo, Ont., Chronicle recently points the Honk Kong was acquired by purchase in 1841 from China which was before the United States acquired Texas from Mexico in 1845.

✦ The executive of twelve main industries of the Town of Orillia have joined together in a co-operative organization called "Orillia Industrial Association." Their purpose is stated in a full page advertisement in the form of "An open letter to our employees in the armed forces," and is featured in the local paper, The Orillia Packet and Times. The message gives a review of the local war-time production in the past, states the conditions to be faced during the period of reconversion and looks forward with confidence and enthusiasm to the future. In conclusion it repeats: "There are and will be jobs for our returning employees."

WE'LL HAVE THE MONEY

to pay our bills

LIKE thousands of other Canadians, farmers will welcome the 9th Victory Loan as another opportunity to save money to provide for future plans.

Victory Loans have provided an excellent means of helping the war effort, at the same time contributing to our own personal welfare.

Canada needs more money now . . . to make loans to foreign countries so that they can establish credits which will enable them to buy food and other things which they require.

This food will come from Canadian farms; these goods from Canadian factories. When we help to create markets for our farm produce abroad . . . and when we help to keep Canadian factories busy . . . we help to maintain good prices for the things that Canadian farms produce.

Victory Bonds also provide a reserve fund of working capital for our own use . . . so handy to have so many times. Any bank will buy Victory Bonds at any time, or loan money on Victory Bonds if we need cash.

. . . and for our future plans, we'll have the money required for things we want to do . . .

Get ready to buy more Victory Bonds this Fall. Buy double this time — the same rate of savings as in previous loans will pay for twice as many bonds over the 12 month period.

NATIONAL WAR FINANCE COMMITTEE

Farmers Can Buy Victory Bonds On Convenient Deferred Payments Through Any Bank

Just sign a short form letter which Victory Loan Salesmen carry (banks have copies) ordering the Bank to buy Victory Bonds for you. Pay 2% when ordering and the balance at any time during the next 12 months. The interest the bonds earn pays the interest on the bank loan.

Bulletin No. 7

Farmers in Western Canada suffer from so many unavoidable losses that they cannot afford to relax their efforts in dealing with avoidable ones. Indeed, the extent and direction of these efforts determine the difference between good and bad farming.

It does not require much travel or very extensive observation to discover that the smuts of wheat, oats and barley take a very heavy toll in the Prairie Provinces.

We have just completed the preparation of a very well illustrated bulletin on the above mentioned smuts. With one or two exceptions, a farmer can readily identify the smuts found in his grain crops by means of the photographs. Descriptions and remarks on control are brief but, we think adequate.

The first essential to control is the ability to recognize the different smuts. Nine times out of ten, when a farmer reports smut in his wheat, even though he treated the seed carefully, the smut proves to be loose smut which can only be controlled by means of the hot water treatment or, better still, new seed. A similar situation arises too frequently with barley.

Farmers, country school teachers and members of junior farm clubs are welcome to copies of this new bulletin without charge. They have only to apply to local Line Elevator agents or write to Line Elevator Farm Service, Winnipeg or Calgary.

Both couples left shortly after the reception on their honeymoon for Banff and Lake Louise.

For travelling Pearl chose a blue wool dress with a blue top coat and black accessories. And Bernice a checked suit with brown accessories. Both had a corsage of white carnations.
